

Aviation safety depends on trust.

At Aircraft Component Supply B.V., trust is the foundation of everything we do. Every component we deliver, whether serviceable with full documentation or sold “as-is”, is supplied with integrity and transparency, safeguarding product safety and airworthiness.

Our commitment:

- **Safety above all** – no compromises, no shortcuts.
- **Conformity & compliance** – meeting all customer, statutory, regulatory, and standard requirements (incl. AS9120B / ASA-100).
- **Counterfeit prevention & traceability** – ensuring authenticity and maintaining complete records.
- **Transparency** – customers know exactly what they are buying.
- **Reliability** – the right part, on time, every time.
- **Progress** – improving our people, systems, partnerships, and QMS every day.

We are committed to customer, statutory, and regulatory compliance while driving measurable objectives for the continual improvement of our Quality Management System.

Quality you can trust — part after part, order after order.

—— **ROBERT DE JONG**
General Manager

QUALITY POLICY
